

Mitchell D. Graham

AI & Computer Science Graduate ❖ Product Design ❖ Cultural Intelligence

graham2md.github.io ❖ 281-844-3947 ❖ mitchellgraham2026@gmail.com

OBJECTIVE

Creative and technically skilled, dual degree Senior in Artificial Intelligence and Computer Science with a minor in Japanese Language graduating May 2026. Experienced in 3D modeling, UI/UX Design, Computer Vision, and Geopolitics. Seeking experience in applying technical expertise to products, customer experience, and data driven innovation in AI.

EDUCATION

Drake University, Des Moines, Iowa with a semester abroad attending Kwansei Gakuin University in Nishinomiya, Japan

- ❖ Bachelor of Science Artificial Intelligence
- ❖ Bachelor of Science Computer Science
- ❖ Minor Japanese

RELEVANT COURSEWORK

- ❖ Generative AI: Theory and Practice
- ❖ Human – Computer Interaction
- ❖ Software Engineering
- ❖ Machine Learning
- ❖ Cryptography and Ethical Hacking
- ❖ Natural Language Processing
- ❖ Artificial Intelligence
- ❖ Algorithm Analysis
- ❖ Discrete Mathematics
- ❖ Database Management

SKILLS & ABILITIES

- ❖ Programming & Development: C++, Python, Rust, TypeScript, GDScript, Qt Designer, HTML/CSS, Qt
- ❖ Artificial Intelligence & Data Science: Machine Learning, Natural Language Processing, TensorFlow, Keras, OpenCV, scikit-learn
- ❖ Design & Modeling: Blender, Adobe Photoshop
- ❖ Cloud & Tools: AWS, Git, Docker, VS Code
- ❖ Game Development Software: Godot Engine, Blender, Adobe Photoshop
- ❖ Languages: English (native), Japanese (Intermediate proficiency)

- ❖ Professional Strengths: Agile Workflow, Cross-Functional Collaboration, Sales and Marketing, Geopolitical and Cultural Knowledge.
- ❖ Comfortable Public Speaker. Four years participation in High School Debate. Recognized for accomplishments by the school district and The Texas Forensic Association. Competed and placed in tournaments around the state as well as prestigious events hosted at Harvard, Yale, and the University of Houston.

LEADERSHIP

Japanese Cultural Language Association (JCLA) at Drake University
President (2023-2025), Vice President (2025-2026)

- ❖ Joined JCLA to deepen cultural understanding and language proficiency through immersive activities and peer collaboration
- ❖ Elected President for two consecutive years, leading event planning, language workshops, and community outreach initiatives
- ❖ Spearheaded cultural festivals and exchange programs that increased club membership by 40%
- ❖ Transitioned to Vice President in Senior year to mentor incoming leaders and ensure sustainable club growth
- ❖ Fostered leadership development through delegation, coaching, and collaborative planning-successfully passing the torch to a new executive team

EXPERIENCE

Product Design Assistant,
 Independent Startup- Remote

January - May 2025

- ❖ Collaborated with a small development team to design and prototype a digital product using 3D modeling tools
- ❖ Participated in weekly design reviews and interactive feedback sessions to refine product features
- ❖ Contributed to user experience decisions

AREAS OF INTEREST

Computer Vision, Human Computer Interaction, Cybersecurity, Product Design, Game Development, UI/UX Design, Software Development, and 3D Modeling
